

DEPARTMENTAL SEMINAR INTEGRATIVE ZOOLOGY: Programme WS 2013

Tuesdays, 10-11:30 hrs, Seminarraum 3

Oct. 01: *Vorbesprechung*

Oct. 08: Alen Kristof: *Molecular mechanisms underlying sipunculan bodyplan formation*

Oct. 15: Martin Fritsch: *Hox and ParaHox gene expression pattern in Polyplacophora (Mollusca)*

Oct. 22: -

Oct. 29: Hannes Paulus: *Pollination Biology of orchids – hunting for pollinators in the Mediterranean*

Nov. 05: Jorge Audino: *Anatomy and development of the pallial margin in scallops (Bivalvia: Pectinidae)*

Nov. 12: Christoph Bleidorn (Leipzig): *The evolution of annelids*

Nov. 19: Alexandra Mangold & Katharina Trenkwalder: *Reproduction and population biology in Hyalinobatrachium valerioi (Centrolenidae).*

Nov. 26: Sylvain Hugel: *Endemic flower visiting crickets and their radiation on islands of the Indian Ocean*

Bianca Sandgruber: *Identification of North Atlantic Siphonodentaliidae (Scaphopoda) using shell morphometrics and radula morphology*

Dec. 03: Anna Weber: *The anatomy of nervous system of Paludicella articulata (Ectoprocta)*

Anna Pavlicek: *Neurogenesis in the invasive zebra mussel (Mollusca: Bivalvia)*

Dec. 10: Carina Nebel:

Dec. 17: Thomas Schwaha: *Current development in microscopy and imaging*

Ahmad Sohel: *Adaptation to laboratory conditions, improvements in mass rearing methodologies and pre-zygotic and post zygotc isolation studies on the olive fruit fly Bactrocera oleae (Rossi) (Diptera: Tephritidae) as it relates to sterile insect technique (SIT) for area-wide pest management*

Jan. 07: Petra Sumasgutner: *Costs and benefits in the settlement decisions of the Eurasian Kestrel (Falco tinnunculus) in human altered landscapes*

Jan. 14: Denise Ivenz: *Syrphid communities of different habitat types in the NP Gesäuse*

Livia Rudoll: *Lab safety*

Jan. 21: Stefanie Jernej: *Feeding behaviour and morphology of the feeding apparatus of the Sardinian Brook Salamander (Euproctus platycephalus)*

Florian Kucera: *Functional morphology of feeding in Triturus dobrogicus, Kiritzescu 1903 (Urodela, Salamandridae)*

Bernhard Schneller: *Bumblebees in Vorarlberg: Faunistics, Flower Visiting Habits, Habitat Preferences and Associations*

Jan. 28: Marlene Hölzl: *Ecology of the Common House Martin (Delichon urbica) in Vienna*

Martina Fröschl: *Computer Animation and Mite Visualization*
